

PRINT

We use UV technology to add prints to customers' Stylepads. Our MDF base preparation method means that any full-colour photo can be printed onto our products.

The print sizes are identical to the dimensions of the various Stylepads:

- 60 x 60 cm
- 60 x 120 cm
- 120 x 60 cm
- 120 x 120 cm

UV technology also enable us to add prints to wood veneer, metal and fabric, etc., which enhances the design even more.

For the very best result, customers should deliver their images as follows:

	dimensions	60 x 60 cm	60 x 120 cm	120 x 120 cm
OPTIMAL	pixels	3543 x 3543	3543 x 7087	7087 x 7087
	resolution	150 dpi	150 dpi	150 dpi
MINIMUM	pixels	1700 x 1700	1700 x 3400	3400 x 3400
	resolution	72 dpi	72 dpi	72 dpi

UV printing technology guarantees high-quality prints every time. We guarantee a minimal lightfastness of two years (based on exposure to direct sunlight).
